

Extend the visit home.

A child who just met an octopus wants more the second they're in the car. Give your families a safe, ad-free way to keep exploring — with your name on it.

Why families trust it

Wild Atlas is a narrated, documentary-style animal encyclopedia for ages 3–9: 200+ animals across 13 packs (3 always free), read aloud in 5 languages. Founded by Josh Vincent, who grew up in a conservation documentary filmmaking family. 10% of proceeds are pledged to conservation. We just launched, so we're not bringing you traffic — we're giving your families something trustworthy to take home.

START SMALL, GROW AS IT WORKS

Crawl, walk, run.

1 · CRAWL · GIVE

A free member perk

You: hand departing families a free unlock code with your venue's name on it — exit poster, QR, or a line in a member email.

Get: a send-off that costs nothing. Families get a free animal pack (\$3.99 value), its printable coloring book, and the books for our other free packs.

Cost: \$0.

Live this week

2 · WALK · CO-MARKET

Perks + a take-home book

You: a coloring and puzzle book made for your venue. Email it to members as a PDF, hand it out, or give away or sell it. Plus a members' discount.

Get: everything in Crawl, plus a keepsake that's yours. Sell it and we can share revenue, or keep it free.

Cost: low to none.

Live in weeks

3 · RUN · BUILD

Your own animals

You: co-create a venue pack — your animals, branding and a map of your grounds — or a white-labeled app.

Get: a branded experience to give members free. If we turn it into a paid product together, we share the revenue.

Cost: on us — we build it.

A project, together

How redemption works

Apple offer codes: one custom code per venue (e.g. RIVERBEND), redeemed in one tap by link or the app's "Redeem a Code" sheet. Member-exclusive, with a redemption cap and optional expiry. Nothing to build on your side.

The co-branded book

Your hero animals in connect-the-dots, mazes and spot-the-difference pages, your logo on the cover, and a "claim your free pack" page in the back. Pre-reader friendly, ages 3–9. See the example at wildatlasapp.com/partners.

Let's find your first rung.

A 15-minute call is enough to pick a tier, set up a code, and get something in your families' hands.
