Pick Our Animals!

Pebble Brook Elementary pack vote

Pre-K to Grade 1

Wild Atlas

Example booklet. Pebble Brook Elementary is a fictional school.

Hello, Grown-Ups!

How the vote works

Each child ticks their 6 favorite animals in this booklet, with a grown-up reading the animal names aloud. The teacher counts the ticks on the tally sheet. The 18 animals with the most ticks become your school pack.

Not here? Write it in.

Use the write-in page for any animal that isn't in the booklet. The school pack uses animals that are in Wild Atlas. If a favorite isn't in Wild Atlas yet, we'll tell you.

Please keep it anonymous

Don't write your child's name on this booklet. We never ask for student names or accounts. The only thing we need from your school is the final list of 18 animals.

Then what?

We build a Wild Atlas pack of those 18 animals, just for your school, and send it back for your OK. Every class can use it, now and in future years. Families get a free code to unlock it in the Wild Atlas app, a narrated, ad-free animal encyclopedia for kids.

Not Here? Add Your Own!

Draw your animal. Then a grown-up writes its name on the line.

A large rectangular area defined by a dashed black line, intended for a child to draw an animal.

My animal is called:

Please don't write names of children or families on this page. Write only the animal. The school pack uses animals that are in Wild Atlas, and we'll tell you if a favorite isn't there yet.
